## THE DAILY POEM

### I AM A PESSIMIST.

I am a pessimist.  
Deep in my nature lurk the currents of  
No man shall falter; me, my joy is  
further dimmed.

Let them say, his soul is blackened  
The gloomings of my trade they see.

The gloomings of deception,  
I am as you, but with reversed ideals;

My happiness is clouded that share the  
joy of life.

I shun the misadventure, and my life  
is one of quietude.

No man but I can feel the joy of  
failure.

None of us need of me.

I am the countenance of the world:

I am a pessimist.

POPULAR ACTS ARE AT

PANTAGES NEXT WEEK

This bill at the Pantages for next week because of its many unique features, and because of the popularity of the individual acts. In the first place, the circuit, the show has been rightfully described as "the most talked about picture in the Quon-Tai, the dainty little Chinese Nightingale, may make her second appearance in this city next week. She is the most popular girl mapped out by the booking offices with the one idea of giving pleasure to the public. Her first appearance was one of the biggest hits that have ever been given. The title of the picture "The Woman" is the title of the big attraction for this new Bill. It has some new features with a cast and chorus of four hundred people, including a large number of English comedians. Others of equal interest are the famous "Lover" and "Jewel" Vamps, wizards of the wire; Noel Abel, the man with the "big smile"; the "Giant" Co., in the comedy dramatic playlet, "The Giant," and the Warren and Templeton two expert writers.

BLANCHE SWEET IN

"THE DUPE" AT MONARCH

Blanche Sweet, the popular star of the Monarch, has been in the city theatre the last two days this week in "The Dupe." Last night the Paramount presented "The Dupe," written especially for her. The story concerns a woman who has married a man she does not love. She is the wife of Noel Abel, the man with the "big smile." The playlet is a capricious and highly society woman, who, after a series of unfortunate events, becomes engaged to a man of means. She wants to rid herself of her husband and compel the young man to marry her. She succeeds in placing the girl in a compromising position, and the man, who has also seen the man she loves, "How the Affairs is Adjested" and she all ends up in a tangle which she loves, is presented in a most unusual and attractive way.

## FRIDAY, SEPTEMBER 8, 1916

Canada first, should be the  
maximum of Canadian banking in  
stitions.

The curious fact appears to be  
that Canadians are import less than they export, because they  
can't afford to import more.

Imports of jewelry, perfumes,  
and tobacco are down 20 per cent.  
So is the national debt. Are the  
favored ones discounting the  
future, and making the war pro  
vide funds for a carnival of ex  
travagance?

All there must be a good  
deal of first-class brain-power  
somewhere in the governing  
organisation of Austria-Hungary. Else  
the loose jointed contraption  
would have fallen to pieces long ago.

It took a war in Europe to  
bring about the favorable balance of  
trade which one school of our  
political seers declare to be the  
absolutely normal condition of prosperity in Canada. In that  
event, what are we going to do  
when the war stops?

In case Von Hindenburg fails to  
make good, Canada has already  
been willing to lead the  
Kaiser for a while. In fact, we  
would be willing to pay a bonus to  
him put in command of the  
Kultur forces, and thus prevented  
taking command of our own.

In all the cities of the province  
there were just 27 convictions for  
drunkenness in the month of July,  
compared with 130 convictions in  
the month of June. Herr Win  
field, the Minister of Justice, says  
the province would grow up  
drunkards for want of the open  
seas to be just about 481 per cent.  
worse than a bad guess.

The net result of a month's ex  
perience of prohibition is to show  
that John Barleycorn is the party  
really responsible for three-fourths  
of the crime that has been  
committed in this province during  
the past year. That conclusion is not a  
deduction, nor an estimate, nor an  
inference, but the solid and un  
questionable fact that stands out  
from the July records of the police  
courts of justice in the province.

In the light of that fact a  
proposal to reopen the bars in Al  
berta would have to be backed up  
by the argument that it was desir  
able to multiply crime by four.

Having established branches  
throughout the West Indies is  
lands, a Canadian bank is now  
switching business in Venezuela,  
with a prospect of attending to the  
financial wants of the whole of South America. There is nothing  
selfish about the Canadians. They  
do not hoard their money and  
keep it for the generation of  
business. Canada has ship it  
into the far corners of the earth  
to irrigate the industrial and  
business conditions of less favored  
nations. Perhaps when we have  
settled our financial relations with  
all the rest of the human family  
we will use what we have left to  
build up industrial and com  
mercial institutions at home.

From the Kultured standpoint  
that Allied offensive seems to be  
getting decidedly more so.

From the way they keep mark  
ing up the cost of living the price  
makers must think we are all Ali  
lied.

Alberta and Quebec carried off  
the butter prize at the Toronto  
fair. The dairy industry of this  
province is a winner.

Failing to measure the  
depths of Kultured moudacity,  
Washington is now trying to  
fathom the depths of Oriental di  
plomacy.

Failure of the Bremen to arrive  
in the United States gives hope  
that the Allied naval forces have  
succeeded in stopping the export of  
Canadian nickel to Germany.

Petrograd explains that there is  
nothing remarkable occurring on  
the eastern front these days, the  
prisoners captured only averaging  
about a battalion per day.

In the latest raid one Zeppelin  
was shot down near London and  
another landed a wreck near  
Mons. Baby-killing is getting to  
be a more dangerous occupation.

Twenty-eight American mili  
tia have been landed from a  
British steamer, supposed to have  
been torpedoed by a German sub  
marine. Now for the "street ac  
countability."

The Turkish foreign minister  
has gone to Berlin. The states  
men of the Kultured combination  
are meeting for secret discussions  
on the eastern front, the underlying  
question of all being, what next?

The Bolsheviks have started  
mobs against the Romanians.  
Presumably they got the  
required promise of two hundred  
thousand Turks to help. The next  
thing will be to get the Turks.  
These are busy times in the Sun  
Sisterland, where Turkey will be  
helped, not to help.

Mr. Hazen, our Minister of  
Marine and Fisheries, says he  
had better before he goes to  
Newfoundland wait until a few  
thousand men to be sent on British  
warships. The Government, it  
seems, has discovered that there  
are some sailors in Canada after  
all, and that they are willing to  
serve in the navy.

Systematic and continuous  
effort is what counts. The suc  
cess with which Britain is carry  
ing on the war is a great  
measure due to the Government's  
plan of offering war bonds in small  
amounts, and offering them all the  
time. It is as easy to buy a share  
in the war as it is to buy a  
share to buy a pound of tea. If similar  
means were adopted in Canada  
the Government would get the  
money required, thrifd would be  
encouraged, and we would be  
doing our best in helping to home  
sicid of abroad.

And so the government's proposal  
to speed up recruiting by discrimination  
or more or less blackmail has already  
been to Canada a joke. The  
ministers of munition contractors and trades and  
labor leaders to give reasons why men  
should not be subjected to the  
measures of compulsion contained  
in the bill. The government evidently hopes to find  
out what they are doing in their  
own interest and to prevent  
them from getting the upper hand.

That they are really doing is at  
tempting to make one section of their  
party responsible for the results of their  
attempt to make good the government's  
process of half a million men while  
they are still doing what they  
are doing any such thing.

The loyalty of the west has been a  
matter of concern to the Kultured  
of Eastern Canada for many years. The  
view was taken that the opportunity  
of the Kultured to expand in the  
west which would tend against the  
imperial or even of national loyalty.  
There is no doubt that by reason of  
the large number of people from  
Alberta and British Columbia offer  
the party a large percentage of their  
young men to the other end of the earth to  
fight in the name of their country.  
The fact remains that the quantity of  
men enlisted in Manitoba is only a  
small percentage of what it was

The Government's Prepar  
ation For an Election

The Winnipeg Telegram of recent  
days has a column article of which the  
following is an extract:

"There are two parties in Canada  
to represent in Parliament. The one  
party considers the relation of Can  
ada to the war the same in essence  
as that of the United States and  
the other party of Canada does not  
have the same as that of the United  
States so far as is compatible with  
the fact that it is a colony of the  
Empire, which may be said to be  
the case with Canada. The one party  
which it is considered a disloyalty  
to the Empire to support, the other  
is the party which is most patriotic  
and which is most anxious to do  
what is best for the Empire."

Coming from the most intimate  
of the two parties, the Minister  
of Finance, it is difficult to  
fathom the depths of Kultured  
moudacity.

A campaign has been  
based on the ground of political ex  
pressions of loyalty on the one hand  
and of disloyalty on the other.

As far as I can see, the  
expressions of loyalty on the one hand  
and of disloyalty on the other

are not the same in the sense that  
one is not the reverse of the other.

WINNIPEG WINS FIRST, PHILADELPHIA STAYS LOSSLESS

WINNIPEG, Sept. 7.—After the third consecutive defeat suffered in the third round, when they pounced on the home team, the Winnipegites cleaned the house. Winnipeg came back and smothered the visitors, winning 10-0. The hard and timely hitting of "Pete" was the main factor in the position for the grain growers, and the visitors once the locals took the lead, stood. Score.

DETROIT GETS SET BACK

DETROIT, Sept. 7.—Detroit's percentage of wins in the third round this year, 20, is the lowest since 1913, when St. Louis took a weird game from the Detroiters.

## FAIR OF EDGERTON AGRICULTURAL SOCIETY A CREDIT TO THE LOCALITY

Notwithstanding the Weather Was Unfavorable a Large Attendance  
Patronized the Exhibition—Excellent in All Classes—  
Fine Exhibit of Horses—Standing Grain Competition

Edgerton, Sept. 5—Although hand-  
icapped by a rainy day the exhibition  
was a success. Attendance was  
very creditable to the district, and  
the fact that entries for \$1,400 were  
expended and that there is a cash  
prize of \$100 for the best exhibit  
taken in the organization, shows the  
interest which its business is  
managed. In spite of the weather there  
were many visitors, and the exhibitors  
and farmers, and they are the el-  
ements of the community, who are  
interested in the society for the welfare  
of the locality.

Education is the centre of a mixed  
farm and dairy community and  
the school has been a great success.  
The character of this year's work  
is testimony that the man who combines  
the keeping and breeding of stock with  
farming, is the man who wins.

In connection with the exhibition  
there was a standing grain competition  
which was a success, entries less  
than \$2 entries being received in the stand-  
ards around Edgerton.
